

FARMER KIOSKS

Diginue's Farmer Kiosks are user friendly and voice support in local languages can also be introduced as an added feature if required. As these kiosks run 24x7 and are user-friendly, revenue collection increases. There are chances of revenue collection becoming more than 100% due to "NO CHANGE" option.

These kiosks can also dispense forms, accepts filled-in forms online, loan applications, status of requests made, reports and all kinds of utility payments. **Daily / Monthly reports** can be generated as per the number of transactions.

FEATURES: - Can function in any environment • 24x7 operational • User friendly – helps farmer handle technology with ease • Can be used by non-computer literate, Multiple functionality • Touch-screen interface • Self-Diagnostics • Local Language & Voice support with very simple and clear navigation • Better transparency of information • Provides farmers new insight on their natural resource-base both in space and time

Kiosks act as catalyst in ensuring sharing of data by the community and outside world
